

CLERGY MANDIZVIDZA

PROFESSIONAL SUMMARY

A highly competent, safety-focused Electrical and Utilities Technician based in Preston with over 6 years of hands-on experience spanning power distribution, industrial plant maintenance, and high-voltage grid infrastructure. Fully certified in the UK City & Guilds 18th Edition Wiring Regulations (BS 7671), combined with a strong academic background in Fuels and Energy Engineering. Proven track record in electrical fault finding, safe isolation (LOTOTO), and overhead/underground network maintenance. Currently leveraging precision tools, operational discipline, and strict regulatory compliance (HACCP) within a large-scale Lancashire manufacturing plant. Actively seeking a sponsored transition into a Maintenance Electrician, Utilities Technician, or Industrial Plant Operator role within the UK engineering sector.

EDUCATION

Bachelor of Science, Fuels and Energy Engineering, 02/2019 to 12/2022
Chinhoyi University Of Technology - Zimbabwe

- **Core Specialized Modules:** Power Systems Analysis, Electrical Machines, Energy Distribution Networks, Safety Engineering.
- **Academic Achievement:** Achieved top-tier marks including 76% in Combustion Technology and 75% in Thermal Power Plants.

A-Levels, Sciences(Mathematic and Physics), 03/2015 to 11/2016
Highfield High School - ZIMBABWE

UK PROFESSIONAL QUALIFICATIONS & VERIFICATION

- **City & Guilds (UK):** NVQ Level 3 Equivalent – 18th Edition of the Wiring Regulations BS 7671.
- **Ecttis Statement of Comparability:** Application Processing (Verifying UK RQF Level 5 / Higher Education Diploma Standard for Engineering Studies)

ENGINEERING & INDUSTRIAL WORK HISTORY

Dunbia | Skilled Butcher | Preston, UK 01/2023 – Present

- Maintain continuous, high-speed line operations within a heavily regulated manufacturing facility.
- Execute daily precision maintenance, safe cleaning, and mechanical sharpening of industrial cutting tools.
- Ensure absolute compliance with strict industrial health, safety, and hygiene frameworks (HACCP).

CONTACT

Address: 39 Oxford Road Bamber Bridge, Preston, Lancashire PR56LQ
Phone: 07458676460
Email: mclergy06@gmail.com
Nationality: Zimbabwean
Permit: B , BE, fkg

VISA STATUS

Active UK Skilled Worker Visa (In-Country / Seeking Change of Employment Sponsorship)

CORE TECHNICAL SKILLS

- **Electrical Regulations:** BS 7671 18th Edition Certified, Safe Isolation, Lock-Out/Tag-Out/ Try-Out (LOTOTO).
- **Power & Distribution:** Overhead & Underground Line Maintenance, Substation Operations, Cable Splicing.
- **Industrial Operations:** Fault Finding & Diagnostics, Circuit Design, Plant Maintenance, Preventative Maintenance (PPM).
- **Safety & Compliance:** Working at Height (Pole/Bucket Access), Risk Assessment, PPE Compliance, HACCP Frameworks.
- **Tools & Equipment:** Industrial Test Equipment, Multi-meters, Pneumatic Tools, Precision Hand & Power Tools.

- Manage workstation safety protocols, identifying and mitigating physical line hazards

Zimbabwe Power Company (ZPC) | Electrical Engineer (Grid Operations) | Harare, Zimbabwe**06/2022 – 12/2022**

- Installed and commissioned new electrical power lines to enhance regional grid reliability and distribution capacity.
- Conducted detailed engineering site surveys and load calculations for accurate planning of upcoming capital installations.
- Executed grounding, bonding, and testing activities to guarantee absolute crew safety during live-line utility operations.

ZESA (Zimbabwe Electricity Supply Authority) | Fuels & Energy Engineering Placement | Harare, Zimbabwe**12/2021 – 06/2022**

- Conducted utility-level preventative maintenance and reactive fault responses across extensive overhead and underground networks.
- Interpreted complex electrical schematics to assist in circuit design modifications, reducing systemic downtime.
- Utilized specialized testing equipment to diagnose insulation faults, voltage drops, and transformer defects.
- Formulated on-site risk analyses and safe isolation protocols before executing high-voltage switching operations.

Megawater Zimbabwe | Maintenance Technician | Harare, Zimbabwe**07/2020 – 12/2021**

- Maintained industrial machinery, water processing equipment, and heavy distribution pumps through rigorous routine servicing and structural checks.
- Averted catastrophic production losses and system downtime by identifying, isolating, and fixing complex electrical and mechanical faults swiftly.
- Developed and executed data-driven preventive maintenance schedules, significantly expanding machine longevity and asset reliability.
- Conducted on-site risk assessments, designed electronic testing protocols, and implemented advanced control systems to boost energy efficiency.
- Managed comprehensive stock controls for industrial spare parts, ensuring minimal operational disruptions during components overhauls

ZETDC | Assistant Electrical Linesworker (Part Time) | Harare, Zimbabwe**01/2017 - 08/2021**

- Supported senior linesmen in maintaining and repairing overhead and underground powerlines.
- Assisted with pole climbing, conductor replacement, insulator changes, and hardware installation.
- Participated in fault response operations, helping restore supply safely and efficiently
- Ensured strict compliance with safety procedures and PPE requirements.
- Worked effectively in teams during planned maintenance and emergency call-outs

LANGUAGES

IELTS C1(Band 7)

HOBBIES AND INTEREST

- Watching Movies
- Reading novels and articles
